

Quality Policy

IN MAERSK DRILLING WE ARE COMMITTED TO:

- Pursue long term growth and profitability through the delivery of high-quality drilling services
- Aim towards being objectively recognised by our customers as having the highest quality performance in our industry
- Deliver high quality in all our activities, onshore and offshore, through safe and efficient operating processes
- Improve our processes and the effectiveness of our management system
- Manage and control risks systematically

Through exercising our core values and principles in everything we do, we utilise continuous improvement and quality management to maintain and deliver a consistent performance to our stakeholders.

TO FULFIL OUR COMMITMENTS WE:

- Apply high standards for well maintained, efficient and innovative equipment
- Maintain a world-class management system containing all our processes and procedures and make them readily accessible
- Comply with the ISO 9001 standard
- Comply with applicable laws and regulations
- Have a structured approach to embedding risk management into our processes
- Promote a culture that supports our commitment to quality management
- Coach our employees in understanding how their activities influence the quality of services
- Implement Lean and Six Sigma methodologies for process improvement
- Require key suppliers and contractors to manage quality in accordance with this policy and use our influence on others
- Rigorously monitor our performance and relentlessly pursue improvements in every aspect of our work
- Seek feedback from employees, customers, regulators and other stakeholders on ways to improve
- Drive continual improvement of quality through open communication and innovative thinking

Maersk Drilling Sustainability Framework

Together with the Health, Safety, Security and Environment Policy and the Corporate Social Responsibility Policy, the Quality Policy constitutes the Maersk Drilling Sustainability Framework.
